EDITION 7 - 2012

Genie – Redback Headers is at the forefront of header design and development in Australia. As a leader in our industry, we continue to improve on all our products and strive for 100% customer satisfaction.

Our product development team is dedicated to developing world standard products that are innovative and cost effective for our customers.

A vast range of headers for most vehicle makes and models, with key benefits of increased performance and better fuel economy being achieved

Redback Headers have a vast range of both Performance Headers and replacement headers to suit various applications. It doesn't matter if you drive a family sedan, V8 or a 4WD, at Proex we can cater for any individual.

Benefits of Genuine Redback Headers

- Up to 10% improved fuel economy and performance
- 1 Year Australia-wide replacement guarantee
- Laser cut flange plates
- 800°C high temperature coating
- Surface ground flange plates ensure a perfect seal to head
- 2 bolt flanges are slotted for ease of fitment
- All our headers are pressure tested to ensure no air leaks
- Mandrel bent Redback Headers at Press bent price 60+ units
- Press bent primary & secondary pipes, designed to minimise crushing of tube
- All Redback Headers are designed to give maximum performance but still maintain cost effectiveness as a full replacement extractor
- Redback Headers are manufactured with the same commitment to quality and customer satisfaction as our Genie Performance Headers Range

Genie Performance Headers cater to a high performance vehicle market with a large range of Performance Headers. Our range is focused on modified V8's or a 4WD, at Proex we can cater for any individual requirement.

Benefits of a Genuine Genie Header

- Up to 10% improved fuel economy and performance
- 2 Year Australia-wide replacement guarantee
- 800°C high temperature coating
- Grey colour, blends into engine bay
- Laser cut flange plates
- Surface ground flange plates ensure a perfect seal to head
- Primary pipes join through flange to ensure smooth airflow
- Flanged outlets (where applicable)
- 2 bolt flanges are slotted for ease of fitment
- 2 and 3 bolt flange supplied with nuts and bolts (where applicable)
- All Genie headers are pressure tested to ensure they have NO air leaks
- All our primary and secondary pipes are mandrel bent
- More power and no restriction
- Designed for maximum performance, ease of fitment and customer satisfaction
